A Sure Way To
End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Special recipes are not necessary for using Mazola. Use any of your own—and with less Mazola than of butter or lard.
Being 100% pure fat—containing no water or air—Mazola is not only less wasteful, but you use 1/4 to 1/3 less Mazola for shortening, as in pie crusts, biscuits, etc.
And after using Mazola for deep-fat frying you can use it over and over again—it carries no flavors or odors. Another remarkable economy feature that has made Mazola the most popular of cooking oils.
